Where we've been

Quick Recap

- Pre-proposals = Pie in the sky
- D/REPO = everything in one place, organized, named | sharable
- The Process = article > saved > cited > bulleted > summarized in 1-2
- Fact Sheet = parse out dissertation, delay #3
- L/R TOC = distinguishable contribution up front | clear sections
- Messaging & Skills = W.N.M.W | g.doc | bullet to roll up
- Environment = academia

Where we going

This is it.

- Messaging = Complete. Nothing left to it but to do it.
- L/R = due Sunday 06 NOV @ 2359
- PRESENTATIONS = BLOCKS 05...06 | 12 NOV 2022
- PROPOSALS = by 07 DEV 2022 @2359
 - Cover + L/R + Fact Sheet + IRB Draft + Instrument Draft
 - Sooner at your discretion
- WRAP UP = BLOCK 06

How's it going?

How did it go?

IRB Application

“Proposed” IRB

- Redundant, cumbersome, & critical
- Toggle to Template via Class Doc

Qualtrics @ UNA

One path of many, greased wheels (UNA sanctioned)

- Not too early to mess with
- Too early to commit to / hard to edit
 - Like when to “End Note” ... At the end, manuscript, polished phase
(never is cool too)
 - When to move from draft instrument to code into Q/x
- Know: settings, configurations, quirks, tricks, distribution lists
- Worst thing: external emails
